

The University of Liège (ULg) invites applications for a part-time (5%) faculty position in “Semantic data” in the Department of Electrical Engineering and Computer Science (Montefiore Institute) of the School of Engineering and Computer Science, to be filled by January 1st, 2018.

The University of Liège

Founded in 1817, the [Université de Liège](#) offers a complete range of university courses at undergraduate and postgraduate levels. It is divided into eleven faculties: Philosophy and Letters; Law, Political Science and Criminology; Sciences; Medicine; Applied Sciences; Veterinary Medicine; Psychology and Education; HEC Management School; Human and Social Sciences; Gembloux Agro-Bio Tech; and Architecture.

The Department of Electrical Engineering and Computer Science (Montefiore Institute)

At the [School of engineering and computer science](#) of the University of Liège, the [Department of Electrical Engineering and Computer Science \(EECS\)](#) offers several programs to undergraduate and graduate students. Since the end of the 19th century, it has developed a leading edge tradition in teaching and research in a range of basic and applied topics in various areas of Information and Communication Technologies, Computer Science, Electronics, Power Systems and Applied Mathematics, and it targets its efforts to contribute in application fields of societal importance, such as biomedical engineering, materials, energy systems, information systems, robotics, and transportation.

The department has a long-standing tradition of international recruitment at the Faculty level, and organizes all its Master's programs in English.

Description of the position

The new faculty member will take part in the teaching activities in semantic data at the graduate (Master) level.

Qualifications

1. A Dr or PhD degree;
2. A strong knowledge in semantic data and its applications;
3. A strong interest for teaching.

Target starting date: 1st of January 2018

Application procedure

For fullest consideration, applications should be sent by registered mail to Prof. Albert Corhay, Rector, University of Liège, Place du 20 Août, 7 (Bât. A1), 4000 Liège, with reference “Charge à temps partiel en données sémantiques”, before **August 31st, 2018**. However, the position will remain open until filled.

The application should include a cover letter, a resume with a complete list of publications, and a copy and a description of the five most significant publications.

A copy of the application should also be sent electronically to [Professor G. Leduc](#) (Department Chair). Please contact him for further information (Guy.Leduc@ulg.ac.be).
